Envision Four Square Mile

Residents invited to April 23 public meeting to provide input into parks, open space improvements for Four Square Mile in unincorporated Arapahoe County

Unincorporated Arapahoe County, CO --- Residents are invited to attend an April 23 public meeting to provide ideas and suggestions about the parks and open space needs for the Four Square Mile community.

The public meeting is 6 to 8 p.m. with a presentation at 6 p.m. and will be held at May Library, 1471 S. Parker Road, Denver.

Arapahoe County is conducting a Parks and Open Space Needs and Opportunity Assessment for Four Square Mile, which is home to 20,000 residents in unincorporated Arapahoe County between Denver and Aurora.

Four Square Mile is part of the Arapahoe County Recreation District and currently has two small neighborhood parks, one open space area and access to the High Line Canal and Cherry Creek Trail.

“This assessment is an important and necessary first step toward increasing recreational opportunities for the residents of Four Square Mile,” said Commissioner Nancy Jackson, who represents District 4, which includes Four Square Mile. “It is a great opportunity for the people who know this area the best – the residents who live here - to help Arapahoe County envision a future Four Square Mile with expanded parks, open space and amenities for people to enjoy Colorado’s great outdoors.”

The goal of the Needs and Opportunity Assessment is to determine the level of service Arapahoe County should provide residents of Four Square Mile and develop recommendations that seek to increase service levels through additional land acquisitions for park and/or open space development; new neighborhood connections to nearby trails; and the addition of new uses at Arapahoe County’s Welch and Cheyenne/Arapaho parks.
