

SIGNAGE

As the recipient of an Arapahoe County Open Spaces grant, you are **required to install signage recognizing ACOS's contribution** to your project. Standard signs are provided for free. Please request enough signs to place at all entrances/exits to your project site, as well as any information kiosks, fee stations, customer service facilities, trailheads, etc.

- Signage should be installed at eye level.
- Signage should not be installed on restrooms or near trash receptacles.

If you have multiple funding partners and plan to install a custom sign, ACOS will provide the appropriate logo and acknowledgement language. The ACOS logo may not be altered in any way. **Send all design proofs to sbottoms@arapahoegov.com for review and approval.**

If you need updated or replacement signs for previous grant project sites, please contact County Grants Program staff to request replacement signage. Replacement signs are available free of charge.

Thank you,
